

It's my understanding that the FCC is considering expanding LPFM service.
I just want you to know that I OPPOSE THIS because I listen to a station that uses
FM translators that might be displaced by LPFM. My station is SO vital to me and to
my
community in that it keeps us in touch with listeners, family, and friends all
across the US. It is so comforting to know that my dad who lives in Florida is
listening to the same
uplifting music that I am and at the same time. It pulls us together and unifies us.
My best
friend in Virginia listens to this same station. It is a topic of conversation each
time we visit.
Please don't take this away from the community!
